

## **Emergency Care in Hostile Operations – The E.C.H.O. Group Affiliation and Supporting Member Brief**

The ECHO Group and its members, students and operators, could not achieve any measurable level of success, if it wasn't for the support of our friends, colleagues and professionals. We, and the community we serve owe gratitude to their commitment and dedication.

When starting a professional relationship, networking or business-type affiliation with a new company, vendors, school etc... we are strict and specific. Our standards for professional ethics, loyalty, quality of end product and mission are all vital components in any decision to form a working relationship. When we approach a venue with a request to partner in operational goals, our expectations of ourselves are no less.

The affiliation can take many forms and offers infinite number of opportunities to further the goals of each member involved. When we endorse a specific product, it has proven its value and quality in the field, and is directly known to our operators. When affiliating with another training venue, it is because our goals, dedication, audience and missions are similar. Often, they go hand in hand when applied to the environments and tactics we rely on. Some of these options are;

- Equipment test and evaluation
- Training affiliation, hosting and sponsorship
- Operational equipment and training props donation
- Information sharing
- Direct financial funding
- Product endorsement
- Training venue allocation
- Free/low cost training
- Conference planning

If your company, school, agency or team are interested in any of our support options, please contact us directly: [training@echotactical.com](mailto:training@echotactical.com)

See our Supporting Members page for additional details.

Sincerely, The E.C.H.O. Group
